Work Experience

Dabotics India Pvt. Ltd, Remote
Web Developer Intern

July-Sep 2023

During my three-month internship, I led projects using HTML, CSS, JS, and React.js, managing code with Git for efficient collaboration. This experience honed my technical skills and developed valuable proficiencies in project management, teamwork, and adaptability.

Projects

Busy-Buy

April 2024

- E-commerce platform with dynamic routing, authentication, and Firestore integration
- Received positive feedback from Coding Ninjas for its CRUD functionality and design, achieving a high score of 490/500.
- Implemented features including cart management, order processing, and user authentication to enhance user experience

Photo folio

March 2024

- Photo Folio simplifies photo sharing with link uploads, creating curated galleries for easy viewing. Its intuitive interface includes interactive options like image deletion, enhancing accessibility, and user experience.
- Leveraged Firebase for real-time data storage and retrieval, ensuring seamless photo uploads and dynamic gallery updates.

Codeial

Nov 2023

- Social media platform, featuring OAuth login/logout functionality for enhanced security and seamless user experience.
- Integrated a chatbot feature to facilitate real-time communication.
- Enabled users to post, comment, and add friends, fostering vibrant social interaction within the platform.

Education

Bachelor of Technology in Computer Science and Engineering (CSE), 2020-24, AKTU, UP - INDIA
